WHAT IS THE COMPLIANCE CLOUD?

A web-based organized and structured database, the Compliance Cloud leverages cloud data intelligence to manage regulatory compliance and monitor food legislation.

Why use the Compliance Cloud?

- Run quick compliance checks
- Receive email alerts with aggregate news that can be tailored to your needs
- Receive early notification of regulation changes
- Access a robust global regulation library
- Take advantage of global regulatory consulting expertise
- Navigate a user-friendly software that saves users time and improves efficiency
- Integrate with Selerant's formula-based PLM solution Devex

Who is it for?

From small businesses to large enterprises, the Compliance Cloud can be tailored to meet the regulatory compliance needs of any-sized formula or process-based manufacturer.

Regardless of the size of your organization's regulatory team, the Compliance Cloud saves users hours of time spent maintaining and updating food laws and monitoring changing regulations.
